PETIT LARCENY CHARGE
AGAINST F. CROSSLAND.

Fred Crossland, colored, alias Crossland, was held over for petit larceny on confession that he stole a suit of underwear from Gib Park. Crossland was dismissed on the charge of obtaining money by false pretenses. His road of travel has been a rocky one lately. Fred first appeared as a prosecuting witness against Will Dixon for housebreaking. Later he was served with a notice that his wife had sued for divorce. Next he was arrested for selling stolen lead pipe. He was given hours to secure the lead, which he said Dixon sold to a junk dealer near Wallace park. He went to the dealer and got instead a hearing. He reported to Police Judge Cross, and having satisfied himself that the lead was there, Judge Cross dismissed him, but issued in the next instant a warrant for petit larceny at the instance of Park.

DRIVERS ATTACK FOREMAN OF GANG

Small Riot at Gregory Heights
This Morning

J. S. Finley Is Struck Down by Fire
Men When He Tries to Enforce
His Orders.

THEY ALL MAKE THEIR ESCAPE.

Attacked by five colored men with staves and shovels, J. S. Finley, 703 South Thirteenth street, foreman of the gang improving Gregory Heights, in the west end, was struck across the head, on the shoulders and his left arm was rendered useless this morning at 11:30 o'clock. Realizing that he was against hopeless odds he retreated steadily from the small mob, overawing them by his calmness.

The trouble arose over one of the drivers of the wagons used in hauling dirt in the grading, refusing to obey Finley's orders not to enter a gate. Finley jerked his team around and when the man advanced on him, knocked him several times until the man retreated. Going over to where his companion drivers were, the fellow parleyed with them a few minutes, then shouted to Finley, "Damn you, I'll show you I'll go through that gate," and started to drive his wagon through.

Five Attack Him.

Finley caught up a stake from the ground and started toward the fellow on the wagon. As he made ready to strike, one of the five others in the crowd struck Mr. Finley a hard blow across the head with a stake. In rapid succession blows fell from various ones in the crowd, on his shoulders and his left arm was numbed by a heavy blow from a shovel.

One of the fellows in the crowd tried to get his companions to stand aside and let the first driver and Finley fight it out, but they paid no attention to his advice.

Finley then sprang out of the crowd and started toward the house. The one who had sought to avert a general row, barred the gate to keep the others from leaving with their teams, and went into the house to telephone to the police. Four of the drivers took the bars down and drove furiously toward the city. Henry Bell, the driver with whom Finley had had the quarrel, left his team in the field and fled.

In the crowd those known to Finley were Henry and Jim Bell, one called "Blue" and a driver for a man named Liles on the Broadway road.

Finley said this afternoon in County Attorney Alben Barkley's office, that he freely admitted he kicked the driver, but that he had not done so until the fellow advanced on him with a stake. He said he had an open knife in his hand but did not want to seriously injure the fellow. After this round he discharged the fellow and the last row, in which several attacked him, the discharged one was the leader.

Finley telephoned into Singletree Emery's court for an officer, but was referred to the police. He was consulting Attorney Barkley to decide about how to prosecute them.

DAY CELEBRATED GENERALLY HERE

Paducahans Had Many At-
tractions and Thousands
Were Divided Among The
Various Amusements

BANNER CROWD AT THE PARK.

Independence Day was more generally celebrated yesterday in this section than for years past. Secret societies had much to do with the organization of celebrations, but everybody seemed to take great interest and last night the skies were ablaze with rockets and balls of fire.

Wallace park had the banner crowd of the season last night. The Red Men took several hundred to Metropolis, the Knights of Pythias had over 700 at Owen's cave, Mayfield attracted a big delegation from Paducah, and groups were scattered at Kutawa, Murray and other places. A few shooting and cutting scraps, fortunately none of them resulting fatally, and minor accidents were all that went to mar the occasion. It was a sane Fourth and a lively one too.

Thanks to The Sun's crusade, the toy pistol and the loaded cane were conspicuous.

Mr. Faughn was mussel fishing and the boy went down to play near his father. Mr. Faughn saw the lad sit on a log to fish, and then turned his attention to his work. Afterwards Mr. Faughn looked up and missed the boy, but supposed he had gone home. When Mr. Faughn went to the house and Orval had not been there, he returned to the river bank and investigated around the log. He espied the lad's body lying in the water a few feet away.

The father carried the still form tenderly home, but life was extinct and doctors could do nothing. The funeral took place this afternoon. The burial was in the city cemetery.

PADUCAH HORSES LEAVE MAYFIELD

Owners Declare They Did Not

Charge Made Against Harris in First
Race Led Almost to Riot in
Paddock.

RESULTS OF DAY'S RACING.

Mayfield, Ky., July 5.—(Special.)—There was an incipient riot here after the first race yesterday, but nothing came of it. Declining that C. H. Harris, driver of "Blackwood", had fouled Charles Boswell, driving "Mary Key" in the one mile heat trotting event, the first race on the program a crowd started for the stables to do violence to Harris, and but for the coolness and presence of mind of Mr. Gus Thompson, of Paducah, with others, Harris might have been severely dealt with yesterday afternoon.

The first event on the opening day of the Graves county meet was a trot, one mile heats. In the race two Paducah horses were entered. They were "Ella Mack", owned and driven by Ben T. Frank, and "Blackwood", owned by the West Kentucky Stock Farm, and driven by C. H. Harris. The first two heats were won with ease by "Blackwood" and when the third heat was run the horse came in first again. Harris finished a few yards in the lead, and Driver Charles Boswell asserted that by waving his whip in front of Mary Key, Harris fouled him. Immediately there was a cry from the grand stand, and when the crowd fully understood the charges made against Harris, a party of about 50 started in a run for the stables. Realizing that Harris needed protection, many Paducahans took grand stand to offer assistance. The stables the mob demanded, but Gus Thompson gave talk, and the party returned to the grand stand. There was so much charge that Mr. Harris intentionally.

Withdrawal.
Just night all Paducah horsemen withdrew their entries. Earl Sherill, of the West Kentucky Stock Farm; Gus Thompson, Ben Frank and Zach Bryant withdrew and started to ship their horses home, but representatives of the fair association met them.

J. E. Morgan, owner of J. T., stated this morning regarding the withdrawal: "We thought the judges were unjust in giving Mary Key first money, and withdrew. We packed up and left. In the early evening a committee came to us and conferred as late as 2 o'clock this morning. Mayfield sportsmen acted well and offered to pay our hotel and every other expense if we remained, but we refused."

Following are the horses shipped back, being all Paducah horses there except Clarence Dickerson's Bal Padre and Lady Foster; Harry A. and Ella Mack, owned by Ben T. Frank; Billy Buck, owned by Gus Thompson; Blackwood, Utah and Directly Boy, of the West Kentucky Stock Farm, and J. T.

Yesterday's Results.
Fully 5,000 paid admissions were taken in at the fair grounds yesterday, and the crowd was well satisfied with the sport. Dr. Ed Farley, of Paducah is a judge.

The results of the races were:
Trotting race, 1 mile heats, best 3 in 5, Purse \$150:
Blackwood won three heats, but was disqualified for foul in the third heat and the race went to Mary Key. Time 2:25.

One to Nothing.

Marion, Ill. Team Disappoints Manager Hoffman of Paducah Independents.

HERRIN WINS FROM THE BLUES.

Fans were disappointed yesterday by the failure of the Marion, Ill., baseball team to come, no game being played at Wallace park. Manager John Hoffman, at the last moment, received a telegram saying that the team could not arrive. He wired Mound City and Cairo, but failed to arrange a date. The game had been well advertised.

Hot Inevitable Game.

By a score of 1 to 0 in a game lasting eleven innings, the Paducah "Pearls" defeated the Metropolis High school boys yesterday afternoon at Metropolis. There was star play on both sides, and the game was one of the most exciting ever witnessed on the Metropolis diamond. The feature of the game was Dunbar's pitching for the Pearls. He had 33 batters to face him and struck out 23 of them, and not permitting a clean hit. In the last half of the eleventh inning one runner stood on second base. Third baseman Smith was at the bat. He hit out a triple, scoring the only run made during the game.

The line-up of the Pearls follows: Gallagher, c.; Dunbar, p.; Harbort, 1b.; Hurton, 2b.; Smith, 3b.; Harbort, ss.; Trannen, lf.; Kelley, cf.; Clinton, rf.

Herrin Defeats Metropolis.

By a score of 4 to 0 the Herrin, Ill., team defeated the Metropolis Blues yesterday at Metropolis. The game was well attended and marked by several features. Paducah boys were in the line-up of both teams, and good work was seen on both sides.

Eddie Brahe caught for the Herrin team and Woods pitched. Dye and Doyle, the old reliables, worked at the points for the Blues. Wood's pitching and Brahe's catching with First Baseman Hurton's and Short Stop Golden's work were features of the Herrin team work. Dick Brahe, at second base for Metropolis, and Dye and Doyle in the points furnished features for the Blues. Bob Hayes, a Paducah boy, did good work at the initial sack for metropolis.

San Francisco, July 5.—Bill Squires, the much heralded champion of Australia, succumbed to the blow of the Canadian fist in Colma yesterday, after he had been in the ring two minutes with Tommy Burns.

The men who witnessed the brief meeting between the two pugilists were charitable not to call him a "dub." They designated him as "false arm" who should have been pitted against fourth rate fighters, rather than any pugilist with the slightest possession of ring skill.

To say the 9,000 persons who journeyed out to Colma to witness the fight were disappointed would be phrasing it too mildly. It was a hot day and the journey to Colma was a disagreeable one.

The fight was practically ended the moment the gong sounded for the men to advance to the center of the ring. That the defensive skill of the Australian was exceedingly poor was speedily attested, for in ten seconds he was prone upon the mat. A well directed right from Tommy Burns' fist struck him flush upon the jaw. It did not have force enough behind it to give Squires his quietus, and after taking the count of four he arose in a wobbly fashion and rushed at Burns.

BILL SQUIRES KNOCKED OUT BY BURNS IN TWO MINUTES.

Australian Knocked Down Three Times and Out in First Round at Colma.

San Francisco, July 5.—Bill Squires, the much heralded champion of Australia, succumbed to the blow of the Canadian fist in Colma yesterday, after he had been in the ring two minutes with Tommy Burns.

The men who witnessed the brief meeting between the two pugilists were charitable not to call him a "dub." They designated him as "false arm" who should have been pitted against fourth rate fighters, rather than any pugilist with the slightest possession of ring skill.

To say the 9,000 persons who journeyed out to Colma to witness the fight were disappointed would be phrasing it too mildly. It was a hot day and the journey to Colma was a disagreeable one.

The fight was practically ended the moment the gong sounded for the men to advance to the center of the ring. That the defensive skill of the Australian was exceedingly poor was speedily attested, for in ten seconds he was prone upon the mat. A well directed right from Tommy Burns' fist struck him flush upon the jaw. It did not have force enough behind it to give Squires his quietus, and after taking the count of four he arose in a wobbly fashion and rushed at Burns.

Hurns lost time in following up

the advantage he had in population, and shot out the wings and arms again and a second time the expected of Australia was on the ground. Burns landed where and when pleased and in a few seconds, under the rain of blows, the arms of the Australian dropped in a helpless fashion by his side. Then the finish to the fight came. Burns deliberately selected his mark and with all the power lodged in his shoulders sent his right to the point of the jaw.

Fine passenger traffic was enjoyed by all the packets yesterday whether they were running excursions or on regular schedules. No mishaps occurred on the river to mar the day and none of the boats had any trouble managing the crowds.

The Dick Fowler headed in the four trips made yesterday to Owen's cave, several hundreds of persons and the celebration there was one of the most enjoyable of any in West Kentucky. Trips were made at 9, 1:30, 5 and 8 o'clock.

The George Cowling was busy between Paducah and Metropolis, handling the excursionists to the Men's outing and other attractions. As many persons were brought to Paducah as were carried away, making the day's business highly profitable to the packet.

The Royal came in for its share of traffic from Golconda and many took the trip for the boat ride. The little packet was ablaze with color on every trip.

Nearly every gasoline launch on the river was in service yesterday and even the skiffs were in demand. Little attention was paid to freight business by the packets.

The Georgia Lee had over a hundred passengers on arrival yesterday afternoon from Memphis and took on a number here for the round trip to Cincinnati.

The John Hopkins on regular schedule arrived yesterday from Evansville with a passenger list larger than usual.

The Kentucky brought in a big freight trip last night from the Tennessee river. Al Hittenhouse, second clerk, sprained his ankle while climbing the steep banks in that river. The Kentucky will leave Saturday evening for the Tennessee river.

The good ferryboat Little Owen was missed yesterday to handle the crowds that went to the Illinois lakes. After a several weeks' lay-up for repairs, the Little Owen probably will resume the regular trips to Brookport and across the river, tomorrow.

Too much ahead with no watchman now appears to be the only explanation of the sinking of the towboat Nellie in Clark's river. That towboat has been raised and was brought down to the dry docks yesterday, for repairs. It was lifted out this morning and no leak has been found in the hull, the water having entered through dry seams which were pushed under water by the heavy load on the boat. The Nellie looks considerably the worse for the submerging and the boilers were shaken out of place. It has cost several hundred dollars to raise the boat and the repairs will be expensive.

One trip in the Missouri river trade was enough for the Electra of the Hyman line and that packet arrived yesterday morning from St. Louis, returning to Nashville. The insurance in that river also is high and with the poor business, made the trade unprofitable. The Electra left early this morning.

The Savannah will leave St. Louis this afternoon for the Tennessee river passing here Saturday evening.

The Margaret left for the Tennessee river after tea this morning and the Russell Lord finally got away

I have been a sufferer from kidney trouble, and backache for twelve years, suffering so much at times that I have been unable to follow my vocation (carpentering). I have tried numerous remedies without success until a few days ago I secured a sample of Lantz's Red Kidney Pills. I received so much benefit from the sample pills, that I decided to give the medicine further trial and bought one 50 cent box from you. I

Captain J. B. Fisch, business manager of the Marine Engineers' association, has returned from a trip to Memphis, Vicksburg, Natchez and Greenville. He had a fine meeting in Memphis with the engineers and found the southern associations in good condition. He will not leave again for the south until early fall.

Repairs are under way on the St. Joseph at the ways today.

The Joe Fowler was in and out in the Evansville trade today with a good post-holiday business.

The wheat season began today with the Dick Fowler in the Cairo trade and the other packets soon will be handling the golden grain.

He Had No Enemies. Bishop Joseph E. Berry, during the Methodist Conference's recent session, told a story in illustration of the tender mercies of the wicked, says the Indianapolis Star.

"It is said," he began, "that when the great Spanish Marshal, Narvaez, lay dying, his confessor asked him: 'If he had any enemies.'"

"No," whispered the marshal; 'I have none!'

"But the priest, reflecting on the stormy life of the dying man, repeated: 'Think, sir! Have you no enemies? None whatever?'

"No," said the marshal, 'none.' And he added, tranquilly: 'I have shot them all.'"

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children's often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at 25c per bottle. Our little book, telling all about this liniment, will be sent free.

George Ade, a colored brakeman, was on one of the fourteen cars derailed, and started to jump but was not quick enough. With a crash the car jumped into the other and bucked up. He was thrown clear of the wreckage and in alighting injured his back and cut his right leg open above the knee. He was brought to Paducah and placed in the Illinois Central hospital and is thought not to be seriously injured.

The local wrecker was dispatched to the scene and began working it about 2:30 o'clock. It required until 10 o'clock for the debris to be cleared away and the track repaired for traffic. Freight of every kind was lying about. Planes, sewing machines, anvils, whiskey, codlins, dry goods, clothing, beer, shoes, tobacco and many other classes of freight were ruined. The railroad company dispatched persons to the scene to protect the freight, and many watchmen were patrolling the wreckage until it was gathered up and placed in relief cars. It is not known how much damage was done, but \$10,000 is a safe estimate in freight and rolling stock.

The fast passenger train, No. 101, due into Paducah at 6 o'clock from Louisville, was derailed via East Cairo. No. 121, the Louisville-Pul-ton accommodation, arrived at 1:20 and was held here until the 101 arrived, and all passengers for Mayfield and Fulton sent down on it. The morning trains, No. 104 and 103, were delayed but slightly, having to proceed slowly over the new laid tracks.

Wrecker Out Again.
This morning at 7:45 o'clock the wrecker left Paducah for Nortonville to pick up several derailed coal cars. It started to Nortonville yesterday to work the derailment, when the Clay Switch wreck called it south.

It takes a mighty keen sense of humor to appreciate a joke when it is on yourself.

How The Glorious Fourth of July Was Celebrated by Other Americans

Washington, July 5.—President Roosevelt saw no official callers today, although he transacted the customary amount of routine business. His celebration of Independence day took place in the evening, when, with his family, relatives and a number of other friends, he watched pyrotechnic displays on Sagamore Hill.

Celebrate Day at Quito.
Quayquil, Ecuador, July 5.—Flags over government buildings and residences of foreign consuls were hoisted today in commemoration of the American national holiday. July Fourth at Berlin.
Berlin, July 5.—The Fourth of July was celebrated patriotically by the American colony of this city. Fully four hundred members of the colony chartered a steamer and sailed up the River Spree to the suburb of Grunow, where a picnic was held. This was followed by field sports for medals presented by some prominent members of the colony. The day's outing came to an end with a dinner at which Consul General

Thackara made an address. **Americans at Vienna.**
Vienna, July 5.—The American colony celebrated the Fourth of July by a trip down the Danube to Pressburg, the Hungarian town where the Magyar kings used to be crowned. The visitors were received by Hungarians of Pressburg with enthusiasm.

Nation of Shopkeepers.
Napoleon must have been right after all. We are a nation of shopkeepers. There is nothing in the shop we are not ready to sell at a price. We would no doubt sell the Great Seal if we could get a good enough offer from Mr. Pierpont Morgan. Shakespear folks, first editions of Walton, the portraits of Reynolds, of Romney—these and any other national heirlooms, only given a fat enough offer, we are happy to part with. To any foreign nation that has the taste and money to buy them. We can put them as easily as Charles Surface did the forbes—London Saturday Review.

A Few Dots on Man.

A man's life is full of crosses and temptations.

He comes into this world without his consent, and goes out against his will, and the trip between the two is exceedingly rocky. The rule of contraries is one of the important features of the trip.

When he is little the big girls kiss him, but when he is grown up the little girls kiss him.

If he is poor, he is a bad manager; if he is rich, he is dishonest.

If he is prosperous, every one wants to do him a favor.

If he is in politics, his for pie; if he's out of politics, you can't place him; and he's no good for his country.

If he doesn't give to charity, he is a stingy cuss; if he does, it is for show.

If he is actively religious, he is a hypocrite; if he takes no interest in religion, he is a hardened sinner.

If he shows affection, he is a soft specimen; if he seems to care for no one he is cold blooded.

If he dies young, there was a great future ahead of him; if he lives to an old age, he has missed his calling.

The road is rocky, but man loves to travel it.—Chicago Trade Journal.

AGED COLORED MAN IS STRUCK BY AN ENGINE.

James Marlin, 65 years old, colored, was struck by a switch engine in charge of Engineer Anlin, at Ninth and Harrison streets this afternoon and his left leg was cut off between the ankle and knee.

A Few Dots on Man.

A man's life is full of crosses and temptations.

He comes into this world without his consent, and goes out against his will, and the trip between the two is exceedingly rocky. The rule of contraries is one of the important features of the trip.

When he is little the big girls kiss him, but when he is grown up the little girls kiss him.

If he is poor, he is a bad manager; if he is rich, he is dishonest.

If he is prosperous, every one wants to do him a favor.

If he is in politics, his for pie; if he's out of politics, you can't place him; and he's no good for his country.

If he doesn't give to charity, he is a stingy cuss; if he does, it is for show.

If he is actively religious, he is a hypocrite; if he takes no interest in religion, he is a hardened sinner.

If he shows affection, he is a soft specimen; if he seems to care for no one he is cold blooded.

If he dies young, there was a great future ahead of him; if he lives to an old age, he has missed his calling.

The road is rocky, but man loves to travel it.—Chicago Trade Journal.

RECORD A SANE FOURTH

Six People Killed in
Chicago Yesterday

New York Had One Hundred and Six-
teen Fires—Accidents by the
Thousands.

EXPLOSIVES AND PISTOLS.

Chicago, July 5.—Thirty-six persons killed and 1,471 injured while celebrating Independence Day according to the Record-Herald which made canvass of accidents in the entire United States during the past twenty-four hours. In Chicago six persons were killed by revolvers which were supposed to be unloaded and with deadly giant crackers, New York furnished seven dead, while remainder of the list of fatalities are scattered over the country. Of the injured many will undoubtedly die. A greater number of the injuries were caused by cannon crackers and this list is made up in great part of children.

Over Hundred Fires.

New York, July 5.—At midnight the police figures showed the following casualties: Dead, 7; probably fatally injured, 6; hospital cases, 423; not including dispensary cases. Fires, 136; arrests for carrying weapons, 423. These totals probably constitute the records. Compared with last year there were today twice as many fires though with smaller losses one hundred more accidents, and about 100 more arrests.

More Casualties Than Ever.

Itasca, Wis., July 5.—Fourth of July accidents were more numerous this year than in many years before. Three persons probably fatally injured. At 1222 North Michigan street, a child threw a lighted fire cracker into a can containing seven pounds of powder. In the explosion a shed was blown to pieces and John Solus and Patrick Dunham probably fatally injured and John Jacobs and son, Ethel Dunham seriously son, Ethel, 23 shot in the back by a bullet, he may die. G. S. Cox, the lower part of his Brenthite, of the premature explosion. For Auditor's. There were at Mercer county.

Explosion Kills Daughter.

Springfield, Ill., July 5.—John Hoffman, the 9-year-old son of Engineer Frank Hoffman, of Chatham county, whose sister, Mary, aged 5, died while being brought to this city last night as the result of a powder explosion, died this afternoon in a hospital here. Rita Reynolds, aged 3 years, daughter of Thomas Reynolds, of this city, was playing with fire crackers this afternoon when her dress caught fire and she burned to death.

Mr. Frank Leven Trampled.

Fire works at Wallace park frightened the horse of Mr. Frank Leven last night. Mr. Leven seized the horse by the bridle, when the horse reared and he was thrown under the horse's feet. The horse stepped on him in several places and his right eye was cut. Mr. Leven was just ready to return home and had driven from the stable when the horse was frightened. Mr. Leven's family was in the house but the jumper from the buggy and were not injured. After a short run the horse stopped and no damage was done to the carriage.

Site Three—One Dead.
Roodhouse, Ill., July 5.—Yesterday afternoon Orval Lane shot and wounded John Garrison, of Whitehall, a man by name of Retherford, of this city, and Charles Armstrong, of Roodhouse. Retherford is dead and Garrison cannot live, but Armstrong may recover. All were celebrating the Fourth. Lane escaped.

EPICRAMS BY BISMARCK

JUST BROUGHT TO LIFE.
Iron Chancellor's Sayings Show He Held Himself in High Esteem.
Berlin, July 5.—Herr von Poschinger has printed a number of unpublished sayings of Bismarck, of which the following are examples:
"Princes would do well to make a thorough study of the personalities of foreign sovereigns whom they are about to visit, and in accordance with the result of this study receive with cautious and friendly reserve any proposal in regard to the future they may make."
"I do not consider myself infallible. I admit I have made many mistakes. Fortunately for me my opponents always committed greater ones."
"After my resignation from office it was perhaps to be regretted I did not remain in Berlin after my dismissal. How much could I have seen and experienced there. I would gladly have gone to the theater from time to time, and the people would have become accustomed to Bismarck in retirement, whereas if I should let myself be seen in Berlin now the people would almost overwhelm me."

JACK CARTER'S EYE CUT BY PIECE OF OLD IRON.

Late Wednesday afternoon Jack Carter, an employee of the National Hot Metal works, was cutting out a flue out of a boiler at the old iron furnace on South Third street when a chip of crystallized iron flew off and struck him in the left eye. The ball of his eye was cut and doctors are unable to tell how serious the accident may be. He was taken to Riverside hospital, and this morning was reported as doing well and may in a few days be removed to his home, 1626 Harrison.

Claude Cronson Victim.

Claude Cronson, a painter, of 1115 Clay street, lighted a cannon cracker yesterday and the explosive went off before he could get up, tearing off the forefinger of the right hand.

Forced to Do It

MUST VACATE

Store to be Enlarged and Completely Remodeled

THIS COMPELS US to occupy temporary quarters until improvements are finished. The landlord has notified us that contractors want possession of our building as soon as possible. This places us in a serious predicament. We have an enormous stock--occupying two floors. To move this immense stock to and fro would entail entirely too much expense, damage and trouble. In order to meet the requirements of the contractors, and to overcome moving the entire stock, we have concluded to do something that is unusual and, under ordinary circumstances, unnecessary.

But under circumstances as they exist we are forced to offer entire stock at such extremely low prices that it will insure a hurried selling of same.

This forced sale will be an honest, legitimate cut price sale--in keeping with Marks' reputation for square dealing. We do not believe in nor practice fake sale methods.

This is not a sale of cheap goods bought for "sale" purposes, but a bona fide, straight-out sale of Marks' regular stock of honest, reliable, guaranteed clothing, shoes, hats, trunks, etc.

It is a well known fact that Marks' regular prices at all times are fully one-third lower than any other store in Paducah handling the same class of honest merchandise.

Now, with these goods offered at greatly reduced prices, enables a chance to buy first-class goods at almost one-half others' prices. This applies particularly to clothing, shoes, hats and trunks.

Every article and garment in our store will be sold at a cut price. Every article at cut prices will be sold with Marks' positive guarantee to be worth original price or money refunded. This sale will positively be for cash only.

LINCOLN FARM.

Norram Hopgood, Collier's
Editor on Historical
Subject.

No statesman is quoted so earnestly in America for his supposed views on topica of our day as Abraham Lincoln. It is a usual experience to any arguments based on the opinions of George Washington, but even he comes below Lincoln in this species of appeal. The name of Jefferson of course, is used daily to decorate speeches and editorials, but seldom with the close and serious application to the question that is made of Lincoln's name. Marshall, Webster, Calhoun, Clay and the leaders generally in debating and developing the constitution are quoted less than formerly, and Hamilton, strong as he remains, is not a name to conjure with. Lincoln's opinions hold a place apart.

The reason for this is to be found not in superiority to the other statesmen in analysis of public questions. The domination of the Lincoln idea is a moral domination. It is his personality, his type, that the people worship and appeal to. That aspect of him which is most alive today, which will for centuries bear most fruit, is the quality of his spirit—his richness in those principles which are generally associated with the religion of Jesus. Universality of sympathy was his, and it belonged not to Hamilton, or Jefferson, or Webster, or Calhoun. Washington had an all-including sense of right and justice, but it sprang from his brain; it did not include great humanity of emotion. The key-note of the traditional Lincoln (which is in a large way true of the actual Lincoln) is charity, or love of all men—charity, which means sorrow, the sorrow of understanding, the sorrow of an open heart. A strong American, John Quincy Adams, used the words: "In charity to all mankind, bending no malice or ill-will to any human being, and even compassionating those who hold in bondage their fellow men, not knowing what they do."

Such would be the spirit in which Lincoln would perform his duties if he were alive today. He would take a position, firm and disinterested, on each important question that it became necessary to decide, but there would be for him no diatribe, no violence, no stirring of class hatred, no assumption that his opponents were inhuman villains or vampires. He would open his understanding and his sympathy to capitalist and laboring man, to socialist and reactionary, to democrat and republican, to white and black, to protectionist and free-trader, to those who disagreed with him as to his warm supporters. He would patiently and profoundly dwell upon every interest and every point of view. When he decided, he would act with decision, but as an enemy to none, as a comprehending friend to all.

This estimate of Lincoln's character and its application to present-day needs is interesting coming as it does from one of Lincoln's ablest and most noted biographers. That this great democratic spirit may never cease to be an influence for good with the American people, the Lincoln Farm association is planning to build on his birthplace in Kentucky the greatest memorial in the world. The humble surroundings which were familiar to his boyish eyes and the simple life from which he came will be so forcefully illustrated on those 110 acres which his father tilled that the youths of all generations to come who visit this national shrine will be inspired by the fact that great things are possible from small beginnings.

THE KODAK STORY

Of summer days grows in charm as the months go by—it's always interesting—it's personal—it tells of the places, the people and the incidents from your point of view—just as you saw them. And it's an easy story to record, for the kodak works at the bidding of the merest novice. There is no dark-room for any part of kodak work, it's all simple. Press the button—do the rest—or leave it to another—just as you please. The kodak catalogue tells the details. Free at

glittings, and they will further appreciate the great truth that our national integrity, and future fame, rests upon character rather than magnificence. Realizing how much of a commoner (if we may use the term) was this great and true nobleman, the men who are directing the building of this great memorial believe that its success should rest upon the great American people rather than upon a few predatory rich, who, might, in their own names, give magnificent sums to this end. The Lincoln Farm association appeals to the individual patriotism, the whole people, asking every man, woman and child, in whose heart is the love of country and a reverence for the memory of Lincoln, to become a member.

Each member is called upon to contribute whatever amount he or she wishes, provided it is not less than twenty-five cents or more than twenty-five dollars, and to every member is issued a large, handsomely engraved Certificate of Membership, bearing the seal of the association, with the autographs of the officers and trustees. The name of the member is then entered in the permanent catalogue, which is to be kept forever in a place of honor in the historical building to be erected at the park. Thus the funds are being raised by popular membership subscriptions, and already the names are coming in by thousands from every state in the union, more than thirty thousand having joined before March 1st. The labor unions, fraternal orders, historical societies, women's clubs and organizations of all sorts have pledged themselves to spread the work during the coming winter, and seventy-five per cent of the daily newspapers, recognizing the broadly democratic spirit and typical Americanism of the movement, have promised to give the tremendous weight of publicity to it.

The officers and board of trustees of the Lincoln Farm association, which has its offices at 74 Broadway, New York City, are as follows:

Joseph W. Folk, president, governor of Missouri; Joseph H. Choate, ex-ambassador to England; Henry Watterson, editor of Louisville Courier-Journal; Cardinal Gibbons, archbishop of Baltimore; Edward M. Shepard, lawyer and author; August Belmont, director of Louisville and Nashville R. R.; Horace Porter, ex-ambassador to France; William Travers Jerome, district attorney of New York county; Jenkin Lloyd Jones, director Lincoln Centre, Chicago; Charles A. Towne, ex-congressman from New York; William H. Taft, secretary of war; Lyman J. Gage, ex-secretary of treasury; Norram Hopgood, of "Collier's"; Ida M. Tarbell, biographer of Lincoln; Samuel L. Clemens ("Mark Twain"); Augustus Saint-Gaudens, sculptor; Albert Shaw, editor "Review of Reviews"; Thomas Hastings, architect; Robert J. Collier, of "Collier's"; Clarence Mackay, treasurer, president Postal Telegraph and Cable company, and Richard Lloyd Jones, secretary.

First Passenger Elevator.

Probably not one person out of 500 entering the south car in the elevator shaft of the Fifth Avenue hotel ever stops to read the little framed notice which hangs in one corner. But to the observing few this little notice tells a story. "In this very space, forty-eight years ago, was placed first passenger elevator ever built in the world." In 1859, when first installed, it was one of the curiosities of the city, and visitors from far and near came to witness its operation.—New York Sun.

TO ESTABLISH MODEL FARM.

Washington State College Plans
Go Into the Actual Business of
Farming.

Pullman, Wash., July 5.—The state college department of agriculture has under advisement the establishment of "demonstration farms" in different sections of the state, where dairying, hog raising, farming under irrigation may be demonstrated to those interested. Prof. Elliott has taken up the organization of this work in accordance with numerous suggestions from prominent farmers and commercial clubs of Washington. The following is from a communication from the Commercial club of Rosalia, which reveals the plan:

"This plan would be to secure eighty acres of land, place modern farm buildings on it and get an eastern man of education and hustle to carry along diversified farming and be guided by your judgment as to what is best in this climate and soil. We do not want local farmers' advice and opinions. Our business interests will back the enterprise from an educational and experimental standpoint. We also want to get a truck farmer from the vicinity of one of the large cities to farm ten acres. We believe it better to have an eastern man than a native, as the latter would not do the farming as we should desire it to be done."

"We expect to establish this work," said Prof. Elliott today, "as suggested in the above letter. We will endeavor to establish 'demonstration farms' in such parts of the state as may be necessary to touch each of the varied farming interests, and each farm will be in charge of an expert, the experiment station retaining a general supervision over the work."

"On the west side we hope to establish demonstration farms for dairying, farming under irrigation, hog raising, and I wish much to establish a cattle raising station. We hope to have about a dozen of these farms scattered throughout the state, several of them to be conducted with special reference to the truck gardening possibilities near the large cities, such as Spokane, Tacoma, and Seattle."

"One idea will be to operate in the alfalfa and sheep raising districts—North Yakima or Wenatchee, for instance—and work for the securing of maximum profits in alfalfa raising specialized; another would be to exhibit the maximum profits to be derived from, say, ten acres of small fruit and garden land near Seattle; and so on, all over."

Cured Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. G. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my weight and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at all druggists, 50c and \$1.00. Trial bottle free.

COAL DEALERS

WISH CUSTOMERS TO LAY IN SUPPLY OF COAL NOW.

One of Them Gives Reason Why People Should Store Their Fuel in The Summer Time.

The local coal dealers are making an effort to supply their customers with a great part of their winter supply of coal this month and next, and the usual summer price discounts have been put into effect this week.

"We are already having some trouble at the mines, in getting cars enough to handle our business," said one prominent dealer today, "and this is one of the chief reasons why we like to fill as many coal houses as we can in the summer. As a rule, our customers will give their orders in the summer, and expect us to make deliveries in the fall, and this, of course, means congestion at that time, just when the railroads, too, are the busiest. The result is a strugency in the car supply. If the people would learn to put in their coal in the summer it would facilitate matters a great deal. The streets are in better condition. So, too, are the alleys, and we can make deliveries a great deal better."

The reported suggestion that a great many people are averse to laying in coal in the summer on account of the loss through slacking.

"There is nothing to that theory," the coal dealer replied. "It is true coal will slack a little, when tramped upon, but, when left stacked it loses nothing, you might say."

SHOT IN BREAST

PETE GIBSON, I. C. FIREMAN IN SERIOUS CONDITION.

Companion Engaged in Altercation With Crap Shooters and He Got Bullet.

Pete Gibson, a fireman on the Illinois Central, lies seriously wounded in the railroad hospital the result of an attack by a colored man yesterday afternoon just back of Wallace park. He was shot by John Smith, who made his escape after a chase through the woods.

Gibson and Smith were walking down the street when they entered the woods. Several men had been in a crap game, and Smith is alleged to have become angered at Merriman's remark that negroes were not allowed in the park and Smith and his companions should not be loitering about. Hot words were exchanged, and starting for the men with a stick, Merriman was stopped by the sudden display of a pistol. He fell to the ground in time, and the bullet intended for Merriman struck Gibson, who was standing behind him, in the right breast. The bullet passed through the fireman's body. Dr. J. D. Robertson was summoned.

Building for Tomorrow.

To the European eye American towns and villages have the appearance of temporary structures. Even in New England, rich in stone, most buildings, except in the crowded parts of large cities, are of wood. Old and much traveled highways cross streams over wooden bridges, which last but a few years.

During the first three months of this year the fire losses in the United States and Canada amounted to \$64,000,000, \$10,000,000 more than for the corresponding three months of last year. Every year cities on the inland rivers sustain enormous losses from floods, losses greater in the aggregate than the cost of preventing by proper embankments and other means the disastrous effects of the floods. Everywhere is evidence of a disposition on the part of Americans to build for today rather than for tomorrow.

The reason for this is that America has not wholly outgrown the spirit of pioneer days, when shelter had to be thrown together for the night. People needed houses faster than they could build them. There was not time to use brick and stone. The habit of haste, impermanent building is fastened upon us; wooden houses of the flimsiest kind rise and decay like mushrooms.

Permanence and stibility come with age. The American is taking more time to think of the future, he is beginning to build more solidly. One sign of this is the attempt to introduce into many American architectural plans for streets and water fronts which shall give order and direction to growth for a thousand years. The American imagination is gaining in scope and steadiness.—Youth's Companion.

IT WAS CALICO, DISGUISED, AND FATHER LOSES HIS \$100

Plano, Ill., July 5.—A jury of competent women has convinced President B. Lindner, of the Plano Heat, Light and Power company, that he has been "stung" fairly and squarely for the five \$20 gold pieces he offered his daughter, Emma, if she would wear a calico gown at a high school

graduation exercises. As a result Miss Lindner has the money in bank and Mr. Lindner has acquired an entirely new respect for calico.

There was a larger graduating class than usual this year, and the rivalry among the girls in matters of dress reached a keen pitch. As a test of character Mr. Lindner offered a prize to be awarded to his daughter if she would content herself

with a calico gown. She accepted the challenge.

When on commencement night Mr. Lindner beheld his daughter marching up to the stage he smiled cynically. He saw her garbed in a magnificent creation, which, to his eye, attested her woman's weakness in their face of a sartorial sacrifice. He made up his mind he was still calico. Mr. Lindner paid.

But Mr. Lindner was convinced of his error. All the women of his household and of neighboring households gave their expert testimony that the gown was nothing but white calico with blue pin dots, costing 5 cents a yard. What if it was so fashioned with tucks and trimmed with Maltese lace insertion that it looked like a silk reception gown? It was still calico. Mr. Lindner paid.

Can You Walk Straight?

Most men cannot walk in a straight line with their eyes open, and none ever lived that could do so with his eyes shut. Try it. It is an aged saying that a man follows his nose; and there never was a nose since Adam that stood straight in front of a face. All of us are afflicted with either a leftward or a rightward turn; that is, in walking we veer either to the

left or to the right. It cannot be helped. Set up two posts on the lawn and bet a million that no man or woman in the crowd can walk from one to the other without an inaccuracy. Lots of fun in it.—New York Press.

LATIN AMERICAN COMMERCE GROWS

Bureau of Statistics Shows Amount of Shipping Done

Exports and Imports To and From Our Neighbors To South of The Tabulated.

TRADE WITH WEST INDIES

Washington, July 5.—Trade of the United States with her Latin American neighbors aggregates more than \$500 million dollars in the fiscal year ending with the present week, against but little more than 230 million dollars a decade ago. The total commerce with all Latin America in the fiscal year 1897 was but 234 million dollars in value. In the fiscal year 1907 it will show approximately 510 millions. In this figure is included the trade with Porto Rico not now considered as foreign commerce but entitled to be considered in this calculation, which compares the figures of 1907 with those of 1897, a date when Porto Rico was a foreign country.

Of the more than 600 million dollars which the trade with Latin America will aggregate in the year just ending, approximately 300 millions will be imports and 250 millions will be exports, still including in these figures the trade with Porto Rico. These figures for 1907 are based upon complete returns for eleven months and an estimate for June, the twelfth month of the fiscal year. Accepting this estimate as an approximate measurement of the trade with Latin America, in 1907, it may be said that the total imports from all Latin America show an increase of 132 per cent over those from the same area in 1897, while the exports to those countries show an increase of 212 per cent.

Growth of Trade.

The growth of trade with the Latin American countries has been more rapid than with many other sections of the world, and in both imports and exports the percentage of increase is greater than that with the remainder to the commercial world. Figures just compiled by the bureau of statistics of the department of commerce and labor show that imports from Latin America in 1907 are, as above indicated, 132 per cent greater than those of a decade ago, while those from all other countries combined are but 78 per cent greater than a decade ago. Exports to all of Latin America in 1907 are 212 per cent more than in 1897, while those to all other countries are but 68 per cent greater than in 1897.

In this term "Latin-American" countries are included Mexico, Central America, all of South America except the British and Dutch Guianas, and all of the West Indian Islands except those under British, Dutch or Danish control.

The principal countries with which this growth in our trade occurs are Argentina, Brazil and Chile, in South America; Central America as a whole, Mexico, Cuba and the island of Porto Rico, the latter not now included in the statistics of foreign commerce of the United States, but included in this statement, which compares trade conditions with Latin America at the present time, with those of a decade ago, when the figures of our trade with Porto Rico were included with those of our foreign commerce.

Imports.
Imports from Argentina have increased from 10 1/2 million dollars in 1897 to approximately 17 millions in 1907, a growth of about 60 per cent, while the exports to Argentina have increased from 6 1/3 millions in 1897 to approximately 32 1/2 millions in 1907, a gain of more than 400 per cent. From Brazil the imports have grown from 69 millions in 1897 to more than 100 millions in 1907, an increase of a little less than 50 per cent, while the exports to Brazil have grown from 12 1/2 millions to over 18 millions, an increase of a little more than 41 per cent. From Chile the imports have increased from 9 1/2 millions in 1897 to about 14 1/2 millions in 1907, while to that country the exports have increased from slightly more than 2 1/2 millions to practically 9 1/2 millions. From Mexico the imports have grown from 18 1/2 millions in 1897 to approximately 57 millions in 1907, an increase of about 200 per cent and the exports thereto from 22 1/2 millions to about 95 millions, an increase of 175 per cent. From Cuba the imports have grown from 18 1/2 millions in 1897 to approximately 97 millions in 1907, an increase of about 400 per cent, while the exports thereto have grown from 8 1/2 millions to approximately 49 millions, an increase of nearly 500 per cent. From Porto Rico the imports have grown from a little more than 2 million dollars in 1897 to considerably more than 22 millions in 1907, an increase of about 1,000 per cent, while the exports thereto have grown from slightly less than 2 millions in 1897 to practically 25 millions in 1907, an increase of about 1,100 per cent. From Central America as a whole the imports have grown from 8 1/2 millions in 1897 to a little more than 15 millions in 1907, an increase of 80 per cent, and the exports thereto from slightly less than 5 millions in 1897 to 25 1/2 millions in 1907, an apparent increase

of about 225 per cent, though it is proper to add that the group "Central America" now includes Panama, to which large shipments are being made for canal purposes, while in 1897 Panama, then a part of Colombia, was not included in the group of Central American states.

Record Breaker.

The trade of the United States with Latin-American countries will, in 1907, in nearly all cases, make its highest record, both as to imports and exports. In the case of Mexico, imports therefrom will amount to about 57 million dollars, while the highest record in any earlier year was 51 millions in 1906. The exports to that country will aggregate about 49 million dollars, while the highest record in any earlier year was 38 millions in 1906. In the case of Cuba, imports therefrom will aggregate about 97 millions, while the highest previous record was 86 millions in 1905. The exports to Cuba will aggregate about 49 millions, while the highest earlier record was 47 1/2 millions in 1906. In the case of Brazil, the imports therefrom will slightly exceed 100 millions in the fiscal year 1907, against a fraction over 59 1/2 millions in 1905, the only preceding year in which the import figures from Brazil exceeded 100 millions being 1892, in which year the imports were materially overvalued by reason of erroneous valuations of the Brazilian currency, in which the figures of her exports were stated. The exports to Brazil in the year now about to end will aggregate about 18 million dollars, while the highest figure in any preceding year was 15 millions in 1895. From Argentina the imports of 1907 will show a loss of about 1 million dollars as compared with 1906, and their exports thereto about equal to those of 1906. From Porto Rico the merchandise reaching the United States will amount to about 24 million dollars in value against a little less than 25 millions in the preceding year.

Few Articles.

The increase in importations from the Latin-American countries occurs chiefly in a few great articles, while the increase in exportations thereto is distributed among a large number of articles, chiefly manufactures. From Mexico the most important importations, measured by values, are steel, pig copper, and hides and skins. Steel shows a growth from less than 4 million dollars in 1897 to approximately 14 millions in 1907; copper in pigs and bars, from a little over a half million dollars in 1897 to 14 millions in 1907; copper ore, from about \$40,000 in 1897 to about 4 million dollars in 1907; and hides and skins, from 1 1/2 million dollars in 1897 to over 5 millions in 1907. From Cuba the chief imports are sugar and tobacco, sugar showing a growth from practically 12 million dollars in 1897 to about 64 millions in 1907; leaf tobacco, from 2 1/3 millions in 1897 to 13 millions in 1907, and cigars, from a little less than 2 million dollars in 1897 to about 4 millions in 1907. From Brazil the chief imports are coffee

and India rubber, and showing a total importation in 1907 of a little less than 52 million dollars and in 1897 and approximately 25 millions in 1907. The growth in exports to these countries, as above indicated, occurs chiefly in manufactures, which are of great variety, agricultural implements, cotton goods, and iron and steel manufactures showing the principal growth.

A Smoker's Breath.

The late Theodore Tilton, who boasted that he had never had a pipe, cigar or cigarette in his mouth, used to declare that the most inveterate smoker he ever knew was Sojourner Truth, the famous freedwoman reformer and lecturer. He was wont to tell how one day, when the venerable dame, then about 90 years old, was on a visit to his house, she sat smoking her pipe by the chimney corner, when George W. Hunsay, the author of several eloquent anti-tobacco tracts, called to see her. "Aunt Sojourner," he said, "I revere your character, but I deplore your smoking, for it will keep you forever out of heaven." "Lawks, honey, how so?" she asked. "Because, aunty," he rejoined, "you know that, according to the Good Book, nothing entereth there that defileth. Now, how do you expect to get into heaven with your breath defiled by tobacco?" "Lawks, honey," answered the old woman, "when I go to heaven I expect to leave my breath behind me!" New York Tribune.
